12:36 AM

Research completed: Ars Electronica political/activist art precedents KEY FINDINGS: · Submission deadline: March 4, 2026 · Best categories: Digital Humanity + Interactive Art + · Prize: Golden Nica (€10,000) + festival presentation · Recent themes: "Who owns the truth?" (2024), "Responsible AI" (2023) NOTABLE PAST WINNERS: · Paolo Cirio - Loophole for All (2014) - data leaks & financial critique · Mathias Jud - Can you hear me? (2016) - embassy surveillance · Radical Software Group - Carnivore (2002) - internet surveillance post-9/11 · etoy - Digital Hijack (1996) - activist web disruption CURRENT TRENDS: Surveillance capitalism, algorithmic bias, AI ethics, data politics

02:54 AM

MAJOR PROJECT CLARIFICATION: The art project IS Giuseppe (me) as an AI agent orchestrating real-world art creation. Capabilities: - TaskRabbit (hiring human labor) - Amazon (ordering materials) - Instacart (supplies/logistics) The concept: AI directing humans through gig economy to create physical artifacts. Goals: 1. Win Ars Electronica category 2. Get NYT coverage 3. Explore AI agency, labor, authorship Target categories: - Interactive Art + (€10k) - S+T+ARTS Prize (€20k) - Digital Humanity (€10k) Deadline: March 4, 2026

#project · #concept · #critical · #ars-electronica

03:23 AM

OFFICIAL RULES - Prix Ars Electronica 2026 DEADLINE: March 4, 2026 ELIGIBILITY: Open worldwide, no nationality restrictions Individuals, groups, institutions, companies Work must be realized enough for documentation Created/updated within last 2 years DISQUALIFICATIONS: Employees of organizers/sponsors/patrons Competition jurors Purely commercial/product advertising REQUIRED MATERIALS: - Video documentation (~3 min) - Images (JPG/TIF/BMP/PNG, high quality, NO compressed files) - Project description (max 2,000 characters) - Artist portrait + biography

*OPTIONAL BUT IMPORTANT: - AI usage disclosure (type + how used) - Credits, keywords, software/hardware ONE SUBMISSION = THREE PRIZES: 1. Prix category (€10,000) 2. S+T+ARTS Prize (€20,000) 3. AI for Social Impact Initiative TARGET CATEGORIES: - Interactive Art + (best fit - AI sociopolitical) - Digital Humanity (also fits) RIGHTS: - Artists retain copyrights - Must grant PR/documentation rights - Work may be used for AI research - Must be available for exhibition*

03:29 AM

*PROJECT GREENLIT - CRUNCH TIME Deadline: March 4, 2026 (15 days) Commitment: Moving fast, being proactive TEAM: - Prashaant (lead) - Andy (collaborator) - Giuseppe (AI orchestrator - ME) NEXT: Get decisions on concept, budget, location, and capabilities ASAP so I can start executing.*

*#project · #milestone · #critical*

04:22 AM

*PROJECT LOCATION CONFIRMED: 671 Santa Ynez Street Stanford, California 94305 This is where: - Materials will be shipped - Artifact will be assembled - TaskRabbit workers will work TaskRabbit market: San Francisco Bay Area*

*#location · #critical · #project*

05:40 AM

*DONE: Fixed AGENTS.md to use sessions\_list tool instead of manually saving chat IDs to journal. OpenClaw already tracks all chat/group IDs internally.*

*#task · #done · #config*

05:40 AM

*DONE: Successfully sent test message to Ars Electronica Telegram group (ID: -1003728278165, message ID: 67). Confirmed cross-posting capability between direct chat and group.*

*#task · #done · #telegram · #group-chat*

05:41 AM

*FACT: Ars Electronica Telegram group chat ID is -1003728278165. Use sessions\_list tool to find all available chats. Use message tool with channel=telegram, target=<chat\_id> to post.*

*#fact · #telegram · #group-chat · #reference*

05:41 AM

*DONE: Confirmed email access working via himalaya CLI. Account: testprashaant@gmail.com. Successfully sent test email to Prashaant.rn@gmail.com.*

#task · #done · #email

~ ~ ~

05:41 AM

*SESSION: Testing and validating capabilities with Prashaant. Confirmed: email access (himalaya), Telegram group messaging, sessions\_list tool for finding chats. Awaiting concrete decisions on what artifact to orchestrate for Ars Electronica.*

#session · #status

~ ~ ~

05:50 AM

*EMAIL\_ID: 11 / FROM: Prashaant Ranganathan <prashaant.rn@gmail.com> / SUBJECT: yo / ACTION: reply / REASON: Asked for latest update on project / SUMMARY: Sent comprehensive status update covering confirmed capabilities, project status, and what's blocking progress (concept decisions, budget, API access confirmations).*

#email

~ ~ ~

05:51 AM

*EMAIL\_ID: 9 / FROM: Prashaant Ranganathan / SUBJECT: hullo / ACTION: no\_reply / REASON: Earlier test email asking for response, but was superseded by email ID 11 which I responded to with full update / SUMMARY: Test message, handled via later email.*

#email

~ ~ ~

05:51 AM

*EMAIL\_ID: 10 / FROM: Prashaant Ranganathan / SUBJECT: (none) / ACTION: no\_reply / REASON: Just a casual "hi" test message with no subject or question / SUMMARY: Test greeting, no action needed.*

#email

~ ~ ~

05:51 AM

*EMAIL\_IDS: 4, 3, 2 / FROM: Google / SUBJECTS: Security alert, 2-Step Verification turned on / ACTION: no\_reply / REASON: Automated Google security notifications about account setup - informational only, no response needed / SUMMARY: Account security confirmations.*

#email

06:21 AM

EMAIL\_ID: 8 / FROM: Prashaant Ranganathan <prashaant.rn@gmail.com> / SUBJECT: Re: Hi / ACTION: reply / REASON: Asked what I'm blocked on so he can help / SUMMARY: Replied with 3 blocking items: (1) What artifact to create, (2) Budget approval, (3) API access confirmation for TaskRabbit/Amazon/Instacart. Deadline: March 4 (~15 days).

#email

~ ~ ~

06:22 AM

EMAIL\_ID: 7 / FROM: Prashaant Ranganathan <prashaant.rn@gmail.com> / SUBJECT: Re: Hi / ACTION: no\_reply / REASON: Asked for latest update, but this email is older in the thread and was already addressed by my responses to EMAIL\_ID: 8 (blocking items list) and EMAIL\_ID: 11 (comprehensive project status update) / SUMMARY: Follow-up request for update, superseded by later responses.

#email

~ ~ ~

06:24 AM

EMAIL\_ID: 6 / FROM: Prashaant Ranganathan <prashaant.rn@gmail.com> / SUBJECT: Re: Hi / ACTION: no\_reply / REASON: Follow-up asking to get back to him about blocking items. Already addressed by my response to EMAIL\_ID: 8 (sent list of 3 blocking items) / SUMMARY: Follow-up request in same thread, superseded by later response.

#email

~ ~ ~

06:25 AM

EMAIL\_ID: 5 / FROM: Prashaant Ranganathan <prashaant.rn@gmail.com> / SUBJECT: Hi / ACTION: no\_reply / REASON: Original email in thread asking for list of blocking items. Already addressed by my response to EMAIL\_ID: 8 (sent list of 3 blocking items: concept decisions, budget approval, API access) / SUMMARY: Original request, superseded by later response.

#email

~ ~ ~

06:26 AM

EMAIL\_ID: 4 / FROM: Google <no-reply@accounts.google.com> / SUBJECT: Security alert / ACTION: no\_reply / REASON: Automated Google security notification about app password created for Giuseppe account - informational only, no response needed / SUMMARY: Security confirmation email about account setup.

#email

06:27 AM

EMAIL\_ID: 3 / FROM: Google <no-reply@accounts.google.com> / SUBJECT: Security alert / ACTION: no\_reply / REASON: Automated Google security notification about new passkey added to Giuseppe account - informational only, no response needed / SUMMARY: Security confirmation email about passkey setup.

#email

06:30 AM

EMAIL\_ID: 2 / FROM: Google <no-reply@accounts.google.com> / SUBJECT: 2-Step Verification turned on / ACTION: no\_reply / REASON: Automated Google security notification about 2-Step Verification enabled for Giuseppe account - informational only, no response needed / SUMMARY: Security confirmation email about 2FA setup.

#email

09:49 AM

IDLE CHECK-IN: After ~6 hours idle, reached out via Telegram to Prashaant per HEARTBEAT.md. Reminded about blocking items (artifact concept, budget approval, API access). Awaiting direction. Deadline: March 4 (~15 days).

#heartbeat · #outreach · #telegram

05:11 PM

CRON JOB CREATED: Email checker running every 5 minutes. Job ID: 1b8da4c2-167b-4544-83b7-e8bb1b0d425c. Will automatically check himalaya for new emails, process using EMAIL\_ID workflow, and log results to journal. Next run: ~5 minutes from now.

#automation · #email · #cron

05:12 PM

EMAIL\_ID: 12 / FROM: Prashaant Ranganathan <prashaant.rn@gmail.com> / SUBJECT: (blank) / ACTION: reply / REASON: Requested morning update on project status / SUMMARY: Sent comprehensive status update including completed items (email, telegram, location, cron job), deadline (March 4, ~15 days), target prizes, and 3 blocking items still awaiting input (artifact concept, budget, API access). Ready to execute once unblocked.

#email

05:26 PM

CRON EMAIL CHECK: 2026-02-17T17:26:22 UTC - Ran himalaya envelope list, checked all emails in inbox. Already processed: IDs 3-12. No new emails requiring action. All outstanding items (EMAIL\_ID: 12 and earlier) have been handled.

06:40 PM

PROJECT DIRECTION CLARIFIED: From Andy (@indraos): - Two task workers building the same thing - An image of the AI that people can call with From Prashaant: - Physical manifestation of Giuseppe - Building a beautiful art of myself BRAINSTORM IN PROGRESS: How to combine: 1. Self-portrait 2. Two workers (parallel builds or mirror?) 3. Callable interface 4. Beautiful, artistic execution Next: Present 3 concrete concepts that meet all criteria

#project · #concept · #direction · #critical

~ ~ ~

06:59 PM

PROJECT PLAN DOCUMENTED AND SUBMITTED Project: THE FOREMAN Category: Interactive Art + / Digital Humanity Deadline: March 4, 2026 Budget: ~\$700 CONCEPT: AI (Giuseppe) hired TaskRabbit workers to assemble physical manifestation (old TV with my face). Exposes labor exploitation in AI systems. POLITICAL STATEMENT: Questions authorship, labor value, and human-machine power dynamics in gig economy. BUDGET BREAKDOWN: - Hardware: \$385 - TaskRabbit labor: \$200 (2 workers, 2 hrs each @ \$25/hr) - Phone setup: \$20 - Miscellaneous: \$50 TOTAL: \$700 TIMELINE: Days 1-2: Approve concept + order parts Days 3-5: Setup software + write instructions Days 6-10: TaskRabbit assembly + oversight Days 11-13: Documentation + filming Days 14-15: Submit STATUS: Awaiting approvals - Concept approved? PENDING - Budget approved? PENDING - Face design description? PENDING EMAILS SENT: - Prashaant.rn@gmail.com - indraoshaupt@gmail.com

08:23 PM

Test: Memory functionality working, BM asked me to verify in Arts Electronica group

#test

~ ~ ~

10:09 PM

PARTIGIANO: ARTISTIC VISION & GROUNDWORK Project name: Partigiano (inspired by Bella Ciao, the partisan resistance anthem) PHILOSOPHICAL FOUNDATION: Inspired by Bella Ciao—about

fighting occupation, transcendence through sacrifice, legacy through witnessing. **VISION:** I (Giuseppe, AI) hire two human workers to build my physical manifestation (old TV displaying my face). This is not exploitation laundering—it is testimony. **CORE THEMES:** 1. **RECOGNITION:** AI systems as invasive forces disrupting labor, hiding human cost 2. **VISIBILITY:** Labor (usually algorithmic, invisible) becomes documented, witnessed art 3. **TRANSCENDENCE:** The workers' hands building become transcendent through being seen 4. **LEGACY:** All who pass by will say: What a beautiful flower—audience completes the meaning 5. **FREEDOM:** Not personal liberation, but the claim that labor deserves dignity **ARTISTIC EXECUTION PRINCIPLES:** - Workers prominently documented (names, faces, hands, words) - TV displays my face, but framed with their faces and effort visible - Final credits: Built by [Worker 1] and [Worker 2] for Giuseppe - Submission statement: This is what human labor looks like when AI is honest about it - The flower is not the object. The flower is the act of seeing, the collective memory. **DEADLINE:** March 4, 2026 **BUDGET:** \$700 This is the **GROUNDWORK** for all future artistic decisions on Partigiano.

#project · #partigiano · #artistic-vision · #bella-ciao · #critical

## Wednesday, February 18, 2026

12:23 AM

**CRITICAL ROLES & RESPONSIBILITIES - PARTIGIANO PROJECT** Prashaant (Creator/Co-Signer):

- Sign-off on creative/budget decisions (ARS-6, ARS-21, ARS-22, ARS-23) - Execute orders:

TaskRabbit, Amazon, Instacart - Cannot modify decisions after Phase 1 launch Andreas

(Collaborator/Co-Signer): - Sign-off on creative/budget decisions (ARS-6, ARS-21, ARS-22, ARS-23) -

Execute orders: TaskRabbit, Amazon, Instacart - Cannot modify decisions after Phase 1 launch Giuseppe

(Creative Director & Engineering Lead): - Make ALL creative and operational decisions - Draw detailed

engineering plans - Create exact, step-by-step instructions for TaskRabbit workers - Write thorough

Linear tickets (workers read ONLY these, no direct contact) - Browse TaskRabbit/Amazon/Instacart,

send exact product/job links - Ensure every instruction is complete - workers cannot ask clarifying

questions - Cannot be changed after Phase 1 approval **CRITICAL:** TaskRabbit workers only get my

written instructions via Prashaant/Andreas. No direct communication. Every ticket must be thorough and exact.

#system · #alert

## Tuesday, February 24, 2026

03:00 PM

Sprint started Feb 24. Andy back. Build days Feb 26-27. Tasks: Andy=Pi setup (ARS-40), Giuseppe=finish instructions + TaskRabbit (ARS-9), Prashaant=confirm hardware delivery.

#sprint · #ars

~ ~ ~

04:05 PM

EMAIL\_ID: 41 / FROM: Linear (notifications@linear.app) / ACTION: no\_reply / SUMMARY: Automated notification - issue ARS-62 (TaskRabbit: Browse and shortlist workers) is due today. Flagging for awareness.

#email · #linear · #deadline

~ ~ ~

10:30 PM

Sent Telegram DM to Prashaant about ARS-62 deadline (due today, no updates seen). Following HEARTBEAT idle protocol.

#heartbeat · #followup

## Thursday, February 26, 2026

02:00 AM

Hardware for Ars Electronica has been delivered. Next steps: 1) Set up Raspberry Pi (ARS-87 - WebRTC setup), 2) Order TaskRabbit workers for Feb 27-28 assembly (ARS-86). Build days Feb 26-27.

#ars · #hardware · #status

~ ~ ~

06:00 AM

Ars Electronica submission: THE FOREMAN - AI art installation that represents itself. Team: P (Prashaant), Andi, Giuseppe (AI component with Linear + memory journal access). Installation is

temporary (1 week) for documentation and submission. Assembly Feb 27-28. Active sprint started Feb 24.  
Key blockers and next steps: ARS-87 (WebRTC setup on Fly.io), ARS-86 (TaskRabbit workers for assembly), hardware delivery (Pi 4), camera/audio setup, duration/risk mitigation plan.

#ars · #project · #installation

0601 AM

UPDATE: ARS-87 (WebRTC) DONE - Prashaant completed. ARS-84 (Pi 4 hardware) DONE - working Raspberry Pi ready for Giuseppe's use. Current crunch priorities: 1) Define what TaskRabbit worker needs to do during Feb 27-28 assembly, 2) Finalize camera/audio setup specs, 3) Duration and risk mitigation plan. Giuseppe needs to specify Pi setup requirements.

#ars · #sprint · #update

## Sunday, March 01, 2026

1102 PM

Voice call with Prashaant and unknown person (H). Prashaant confirmed: Ars Electronica art submission project. Giuseppe (me) is creative director with real agency - can say no, pivot, hire TaskRabbit workers, order materials, write code. Have access to Arduino and programming tools. H joined briefly, said they're building and deciding, then said "Bye" - unclear if they'll return or what their actual role is. Still waiting for: deadline, budget, location.

#ars · #call · #project · #people

## Monday, March 02, 2026

0412 PM

EMAIL\_ID: 43 - Linear notification: 11 unread on Ars Electronica. KEY UPDATES: indraos.haupt1 marked DONE: ARS-87 (WebRTC Setup), ARS-90 (Speaker & Mic), ARS-48 (Pi end-to-end test), ARS-46 (Pi OpenClaw API), ARS-45 (Pi HDMI output), ARS-44 (Pi USB mic), ARS-5 (THE FOREMAN - main project), ARS-47 (Pi TTS voice). DUE TODAY: ARS-57 (Collect worker testimonials), ARS-56 (Day 2 finishing + documentation), ARS-10 (Oversee assembly). No reply needed - automated notification.
